

Michael Pötzl, Prof. Dr.

Office Address

Coburg University – Faculty of Design
Friedrich-Streib-Str. 2
Consulting Engineer with pötzl ingenieure
Mohrenstr. 4
96450 Coburg, Germany
Office: (0049) 9561 317 112
michael.poetzl@hs-coburg.de

Education: Leibniz University, Hannover, Germany
Dipl.-Ing. in Civil Engineering, 1986
University of Stuttgart, Germany
Dr.-Ing. in Conceptual Design, 1995

Pötzl is professor for structural engineering at Coburg University since 2001. Before he worked at construction company Dyckerhoff & Widmann AG in Munich (1987–1989) and Schlaich Bergermann and Partner in Stuttgart (1995-2001). During this time Pötzl was responsible for some innovative structures e.g.: Nesenbachtal bridge in Stuttgart, rebuilding of Gottlieb-Daimler-stadium in Stuttgart, fair hall in Düsseldorf. Since 2004 he is consulting engineer with Pötzl Ingenieure in Coburg with a focus on bridge design. Since 2003 he is a publicly appointed checking engineer for concrete structures in Bavaria. Since 2001 he is participating in many design competitions especially in bridge design.
