Dr. Upul Attanayake is an Associate Professor of Civil and Construction Engineering at Western Michigan University, Kalamazoo, Michigan. In 1998, he obtained his B.Sc. (Eng.) degree with honors from the Faculty of Engineering, University of Peradeniya, Sri Lanka. He obtained his M.Eng degree specialized in Structural Engineering in 2001 from Asian Institute of Technology (AIT), Bangkok, Thailand. In 2006, Dr. Attanayake obtained his Ph.D. from Wayne State University, Detroit, Michigan.

Dr. Attanayake's technical specialties include structural and bridge engineering, accelerated bridge construction, condition assessment and health monitoring of structures, concrete durability, nondestructive testing, finite element applications, and sustainable built-environment.

Dr. Attanayake is a registered Professional Engineer (PE) in the state of Michigan. His affiliations with the Transportation Research Board Technical Committees include AFN30-Durability of Concrete (member 2007 – 2016) and AFF30 Concrete Bridges (member 2014 – present). Dr. Attanayake has authored/co-authored more than 65 peer-reviewed papers and more than 25 technical reports. Dr. Attanayake has been recognized with many awards including the Outstanding Reviewer, ASCE Journal of Bridge Engineering and the Outstanding New Researcher, College of Engineering and Applied Sciences, Western Michigan University.
